Request for Waiver: CC Docket No. 96-45 and CC Docket No. 02-6

We recently became aware that an error was made by USAC on FRN 1485250. We contacted USAC representative, Rachel Dela Isla on August 3, 2007 requesting clarification of the denied amount. Rachel responded, in a phone conversation, that there was an error made by SLD and they had doubled the denied amount (\$19,940.30) She indicated that an internal appeal would be filed and we would receive notification of the additional funding.

However, this morning I received another phone call indicating that the FCDL deadline was 12/2006 which puts us outside the required deadline for filing an appeal. She recommended that we initiate a waiver request with the FCC.

Below is a brief explanation of the denied amount and the information from our provider, notifying us of the suspected error.

SLD Explanation The dollars requested were reduced to remove the ineligible product(s)/service(s): Cisco 3845 VCE BDL PVDM2-64 240 SRST LIC and the associated tax, maintenance and installation costs. SLD Rejected Amount \$19,940.30

Info below provided by Network Infrastructure Corporation:

The dollar amount the SLD denied on the DO FRN 1485250 doesn't seem to be correct based on their explanation and PIA review. The first portion of the cost allocation is for the 3845, this was a per unit cost allocation, so the total denied portion should be \$11,459.94 not the SLD denied amount of \$ 19,940.30.

Please consider this request for waiver and reinstatement of the funds that were denied in error by SLD.

Sincerely:

Robert Werhanowicz
